

CAMPUS JOBS -- LEADS FOR STUDENTS

(also available @ www.ncsu.edu/career)

Most departments at NC State employ students for a variety of jobs from administrative or technical support to website design and research.

Step 1: Research departments of interest (visit their website).

Step 2: Apply as directed on-line or visit the department directly to express interest.

Speak with the Director or Office Manager. Bring a copy of your resume.

The following list of departments will help you get started. It is by no means comprehensive – many other units may need your skills and do hire students! Applying for campus jobs will require time and effort on your part. The end result is a job that is convenient, works well with your class schedule, and provides valuable experience for the future.
