-------------	----------------	-----------------	----------------	-------------	---------------------	-----------------------------	----------------------	----------------	---------------	--

The Account tab is where you will find your contact information and you can change your password. You can also find complete user guides & NACE salary survey information

The Resume Books tab allows you to search for students that meet the qualifications for your positions to view their resumes and contact them directly. Third-party recruiters are not given access to this tab.

Under the Jobs tab, you can see & manage all of the jobs you've posted in the system. You can also post a new position here by clicking the 'Add New button' under the appropriate heading.

The Profile tab contains information about your company. Not every field is required, including as much information as possible is helpful to students as they try to figure out which companies are a good fit for them.

The Events tab contains information about all the career fairs being held at NC State. Here you can register for events and request to hold an information session on campus.

The On-Campus Recruiting tab allows you to see & manage upcoming on-campus interview schedules. You can also request a day to interview on campus here.
