

SAMPLE THANK YOU LETTER

handwritten version

September 25, 2010

Mr. Miller,

Thank you for setting up the interviews this week to meet members of the design team. I truly appreciate the time and effort of everyone to provide a clear picture of the opportunity at Altec.

I was very impressed with not only the state-of-the-art tools available to the staff, but also the work ethic of the group and the standards to which they subscribe. This says a lot to me about the values to the company which are important to me in my first engineering position.

I look forward to contributing my creativity, integrity, and technical ability to design projects in the future at Altec.

Sincerely,

Ashley Dixon
